I'm a Junior Web Developer mainly focused on frond-end development. Mostly using React, but I'm completely open to other tech stacks as well.

### 🧠 HARD SKILLS

- HTML5, CSS3, JavaScript
- ExpressJs
- TypeScript
- React
- Bootstrap
- GIT / Github
- SASS
- Styled Components
- Python

### 📁 PROJECTS

**Hodler Checker**, [https://github.com/tamaskovacs0408/crypto\\_app](https://github.com/tamaskovacs0408/crypto_app)

Check the current prices, 24H volume, market cap, circulating supply and all time high price of the first 30 ranked crypto currencies with this React application.

**Docs App**, [https://github.com/tamaskovacs0408/docs\\_app](https://github.com/tamaskovacs0408/docs_app)

With this app developed with React you can create, edit and delete Google Docs like documents.
